

REV	DESCRIPTION	DATE	BY
P1	Making sketch for the prototype build plan	2026-10-03	AC

WHERE IT GOES
This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

All three rolls: 60 mm bright bar, 900 mm face, ends faced square.
Journals turned to 30 mm, a sliding fit in the bronze bushes (0.05 to 0.10 mm clear). Small fillet at each shoulder.
Lower pinch roll (drawn): 1,092 mm overall; gear-end journal 90 mm, sprocket-end journal 102 mm; keyways for the gear and sprocket.
Upper pinch roll: 1,032 mm; gear-end journal 90 mm, other 42 mm; keyway for the gear.
Bending roll: 984 mm; both journals 42 mm; no keyways.
Turn between centres; run-out of the face within 0.05 mm.
Fit: pinch rolls one above the other at 61 mm centres (1 mm sheet); bending roll 90 mm behind, set by its screws.
Check: each roll turns freely in its bushes by hand.
